BANDIT ROBS MAIL CAR, MAKING AWAY WITH \$100,000, IS SHOT

PONTIAC PLAN OF HOUSE BUILDING IS FAVORED HERE

HOUSING INVESTIGATORS SAY PROGRAM WOULD BE SUCCESS IN JANESVILLE.

GAIN MUCH DATA

Trip to Four Michigan Cities Is Big Success—Report To Be Published.

One outstanding feature impressed Janesville's party of business men in their visit to four Michigan cities of Alhambra to learn how they kept pace with industry and solved their housing problem. It was: The people seem to know what they have and what the General Motors plant meant to the life of their cities and they are building and building rapidly with an almost utter disregard to any and all building conditions.

The housing research expeditionary forces arrived home last night, enthusiastic over results of the trip, the hospitality they received and the fact that they had gained the experience of two days and nights. Altogether they traveled in excess of 1,100 miles by train and motor.

Loaded with Plans. They talked with builders, building experts, industrial chiefs, business men in every walk and with the home owner himself. In every city they found the one best plan. They have packets full of plans, recommendations, and specifications which will come from the one best method for Janesville to race neck and neck with industry in building homes for the hundreds of workmen and others who will make their residence here within the next few years.

Pontiac Plan Favored. The Pontiac plan found most favor with the Janesville men. At this place, the gigantic home of the General Motors plant, the building hundreds of three- and four-room houses. The structures are laid out in such a way as to permit a large number of houses to be built on a small lot.

The Land Contract Company. The Land Contract company, a Pontiac concern, is the big factor in getting homes. It is organized to divide over the owner at a low rate of interest, and the company has a mortgage on the complete lot.

Residences of three and four rooms, with side, rough grade, plumbing, gas, sewerage and walks cost from \$2000 up, Mr. Harmon explained.

No Stated Plan in Flint. At Flint, Mich., the party found no concentrated building effort. Here it is exclusively speculative and with no definite plan of construction.

Mayor of Commerce has a housing bureau however and has also a city plan. The greater majority of the residences in Flint were built by the kindergarden through its modern housing corporation.

Yet Flint workers are building modern homes costing an average of \$70,000 and the number that has already been erected as well as those in process of construction was bewildering.

Building was the next stop. Here the Lansing Homes Building company with a capitalization of \$1,000,000 is doing big things. It is a home owner with a paid up stock of \$600,000. The system is one which (Continued on page 7.)

KING STOOD BUSY TO COME TO AMERICA

[BY ASSOCIATED PRESS.] Bucharest, Rumania, May 14.—King Ferdinand and Queen Marie, of Rumania, have decided to postpone their visit to the United States until next spring. Problems facing his country are so numerous and serious that the king and queen are unable to leave the country at the present time.

"After Queen Marie and I pay official calls at some European capitals," said the king, "we will be able to plan our trip to America to which we are both looking forward with great pleasure."

Queen Marie, who for a long time has been contemplating a trip to the United States, was present during the interview, jokingly remarking to one correspondent that the American people "would have no time to receive a queen while busy selecting a president."

Lone Train Yegg Killed After Daring Hold-Up; Chicago Policeman Dies

Fugitive Youth Holds Hundred Cops at Bay for Hour as Rifle Fire Rains, Takes One Life Before Bullet Kills Him.

(By Associated Press) Chicago, May 14.—One of the most daring robberies that has transpired in recent years in the middlewest, ended this morning in the death of a lone bandit who last night looted the Illinois Central-New Orleans limited and the recovery of currency estimated to total nearly \$100,000. One policeman, shot by the bandit, died and another is seriously wounded.

The bandit was identified at Horace Walton, 22, of St. Joseph, Mo. Walton fell with four bullets in his body after barricading himself in his apartment and fighting a pitched battle with more than 100 police, including several picked rifle squads.

Walton boarded the train at Gilman a few miles from Kankakee last night, taking a seat in a pullman. A Decatur pouch containing registered mail was taken on the train at Gilman.

As the flyer pulled out of Kankakee, Walton stepped into the mail car and announced that he was the postal inspector. He walked toward Elmer F. Harris, chief clerk, and his four assistants, then suddenly drew a gun and commanded "hands up." The clerks obeyed.

Harris and three of the clerks were ordered to lie down on the floor, and James E. Burke, the fourth clerk, was forced to bind their hands behind them. Walton then tied Burke's hands and set about leisurely sorting the mail pouches.

Rifle Mail Bags. Armed with the clerk's key he picked out and rifled the bags which contained the registered mail, including that of the U. S. treasury, and he had inside information. A traveling bag appropriated from one of the clerks furnished a receptacle for the money.

After filling the bag Walton kept up a running fire of bullets with the clerks until the train reached Englewood station in South Chicago shortly before 1 a. m. There he opened the door and as the train gathered speed he leaped into the street.

Fifteen minutes later Patrolman William A. Roberts and John Kendrick met Walton. Their suspicions were confirmed when he stepped forward to question the man. Walton with his revolver in his pocket shot through his coat and Roberts fell, shot in the head and killed.

Walton leaped into the armway of an apartment building while Kendrick dropped behind Robert's body and opened fire with his revolver. Shots the policeman dashed forward and grappled with the man. Walton dropped the bag and fled.

Holds 100 Police Aside. Patrolmen who were summoned by neighbors located the man in an apartment house a half block away. They surrounded the building and held the man in the apartment. He was shot in the back and died.

Walton was a young man, about 25 years old, of Irish descent. He was a member of the local Y. M. C. A. and was well behaved here. His father, L. T. Walton, will go to Chicago to look after the body.

Bolesheviki to Permit Bartering With Siberia

(By Associated Press.) London, May 14.—The London headquarters of the Union of Siberian Soviet Republics has received from Gregory Krassin, bolshevik minister of trade and commerce, representatives for the organization of a trade agreement with the United States.

The agreement, which will be signed in the months of the Ob and Yenisei rivers for the purpose of reopening trade on the Siberian route with Siberia, American and British traders will be represented, co-operating with the Soviet government.

The expedition will get under way early in August.

Milwaukee Street Car Employees Allowed Raise

(By Associated Press.) Madison, May 14.—Increases in wages were authorized by the state commission board today for employees of the Milwaukee electric railway system. The hourly rate is increased from 48 cents to 50 cents for the first year, 53 cents for the second year, and 61 cents for the third year.

Advances in other departments and an 18 percent increase to Racine Gas company employees is also authorized.

PIRATES SERVED TEA AT THEIR SHIP ROBBERY DE LUXE

(By Associated Press.) Constantinople, May 14.—Charges that the French steamship Soulaire could not have been robbed by Black Sea pirates May 13 without capture of the vessel employed on the ship were made by 300 indignant passengers of the craft who landed here Wednesday in driving rain.

Penniless and enraged, the passengers joined in denouncing the failure of British authorities at Batum to disarm the robbers before they boarded the Soulaire.

The captain of the Soulaire refused to discuss the matter with the correspondent of the Associated Press.

James Wood, Glasgow, Scotland, who was on board, witnessed the holdup said the thieves showed "great courtesy," asking the passengers they were searching for tea and ordering stewards to bring refreshments.

Before leaving the ship one robber of experts ready to pass upon jewels suspected of being imitations.

DO YOU KNOW? That Janesville has four public playgrounds and two public swimming beaches?

HOOVER DECLARES FOR OPEN SHOP IN INDUSTRIAL UNREST

TESTIFIES BEFORE SENATE COMMITTEE AT HEARINGS ON PROPOSED LEGISLATION.

BACK TO UNIONS Recognizes Collective Bargaining But Denies Compulsory Membership.

(By Associated Press.) Washington, May 14.—The principle of individual freedom requires the open shop, J. Edgar Hoover testified before the senate labor committee at hearings on proposed legislation for the settlement of industrial unrest.

Mr. Hoover, who was a member of President Wilson's second industrial conference, said he did not believe the relationship between employers and employees could be settled by any form of legal repression, whether it be by injunction, compulsory arbitration, or industrial courts.

All Lead to Jails. "Fundamentally," he declared, "all such effort leads inevitably to the use of jails as a solution for disputes as to respective participation of labor and capital in industrial unrest."

"No one doubts that the modern consolidation of the employers over the workers gives every justification and right for the organization of the employees similarly into units for the purpose of equity in bargaining powers. Such organization has a right to present its own representatives in bargaining. On the other hand, there should be no compulsion to join such an organization. The principle of individual freedom requires the open shop."

Mr. Hoover, however, approved the plan of the second industrial conference for voluntary settlement of labor disputes through cooperative agreement.

Senator Jones, democrat, New Mexico, wanted to know if labor had been disturbed by excessive profits.

"It has," replied Mr. Hoover, "but it is difficult to say how far this has been caused by industrial unrest, now, with the rising cost of living."

Political Strikes in Europe. On the question of strikes Mr. Hoover said a distinction should be drawn between political and industrial strikes for political ends had been resorted to in Europe.

"There has been no taint of such strike order in this country," he declared.

Mr. Hoover declared that industrial conferences with employers and employees contained "a considerable percentage of extremists and the different views between the two led to the hope of arriving at constructive results."

No Faith in Revolution. What was needed, he said, was the moderate view. He did not believe any revolutionary steps should be taken.

Asked about the Kansas industrial law, Mr. Hoover said it might develop something of benefit to the entire country but that his own view was that it could not succeed.

Little hope of arriving at constructive results."

Mr. Hoover thought it was almost impossible to legislate as to hours of labor. Wages, he said, should take into account the cost of food, clothing, housing, education, savings and the enjoyment of all benefits of the civilization of the time.

CRIPPLE CREEKS BADLY CRIPPLED

(By Associated Press.) Washington, May 14.—Census reports announced today are as follows: Census of 1910, 87,091, increase 3,874, or 4.4 percent.

Oil City, Pa., 21,274, increase 5,017, or 23.6 percent.

Cripple Creek, Colo., 2,325, decrease 3,677, or 157.8 percent.

Coches, N. Y., 22,967, decrease 1,722, or 7.5 percent.

Parrell, Pa., 15,115, increase 4,925, or 32.6 percent.

Parrell, Pa., 15,115, increase 4,925, or 32.6 percent.

Parrell, Pa., 15,115, increase 4,925, or 32.6 percent.

Parrell, Pa., 15,115, increase 4,925, or 32.6 percent.

Parrell, Pa., 15,115, increase 4,925, or 32.6 percent.

Parrell, Pa., 15,115, increase 4,925, or 32.6 percent.

Fugitive Is Near End of Resistance

(By Associated Press.) El Paso, Tex., May 14.—Surrender some time ago of the late President Carranza and his forces, said to be surrounded near Rinconada, Puebla, was predicted in a telegram from General Obregon, former candidate for the presidency of Mexico, received today by Luis Montes De Oca, Mexican revolutionary "consul" at El Paso.

REBELS ARE WINNING IN BATTLE WITH CARRANZA

Mexican rebel forces have apparently won the first phase of the battle against loyal Carranza troops, which have been fighting in a desperate battle north of San Marcos, state of Puebla, for the past 4 days.

Advices from Vera Cruz indicate a break in the Carranza lines and an effort on the part of the president's men to break through the rebel lines and march northward.

Struggle Is Continuing. The struggle is continuing and rebel reinforcements are reported coming up from the south.

An international incident may be foreshadowed by the fact that W. A. Body, British consul for Vera Cruz, is in the camp of President Carranza. Advice gives no details as to the reason for his presence there. British and American authorities in Vera Cruz have arranged for a Mexican lieutenant to go by special train to the battlefield and attempt to rescue the Englishman.

Warships at Vera Cruz. French and British warships have made their appearance in the harbor of Vera Cruz and four American warships are anchored there.

Negotiations for the surrender of Matamoros across the frontier from Brownsville, Texas, are under way and it is expected the Carranza forces there will surrender without fighting long.

10,500 Yanks in Mexico. Americans in Mexico number 10,500, not taking into account those in a consular district from which the state department has received no report recently. There are 4,000 Americans in the Tampico district also.

A statement issued today by the state department said there was nothing in any of the department's files of Carranza's forces or of the Americans were in danger. Two Americans were reported with Carranza, who is endeavoring to fight his way out of Mexico.

Wackel's revolutionary line between Esperanza and Mexico City. Details were not given.

CLOTHINGMAKERS ASK UNEMPLOYMENT FUND

(By Associated Press.) Boston, May 14.—Resolutions requesting their employers to set aside an unemployment fund out of their profits for the benefit of employees who are idle during slack periods in the industry was adopted by the American Clothing Workers of America, who closed their fourth biennial convention here today.

The delegates voted to put into operation within 90 days one joint board in New York under which the joint board of the children's clothing workers will be abolished.

The delegates also adopted a resolution advocating a five day week of 40 hours was defeated.

The candidacy of Eugene V. Debs for president was endorsed, although the convention refused to go on record as a body favoring the socialist party. Removal of the blockade against Russia, admitted of the Soviet government were urged.

Dr. James P. Warburg, president of the cooperative league of America, urged the clothing makers to join in the movement to educate the workers so that from operating in a cooperative way they might in time take over the manufacturing.

Miss Leitch Retains British Golf Title

(By Associated Press.) Newcastle, Ireland, May 14.—Miss Ceil Leitch retained her title to the British women's golf championship today by defeating Miss Molly Griffiths in the final round of the tournament by 7 up and 6 to play.

Speakers Arrested in Steel City, Out on Bond

(By Associated Press.) Pittsburgh, Pa., May 14.—Six men arrested today for their part in a meeting under the auspices of the American Steel Workers' union, were released under \$200 bonds each here today pending hearing in the Allegheny county court this morning.

Red Rule Fails, Poorly Clad Russians Clamor For Food, Ryan Reports

(By Associated Press.) Washington, May 14.—Bolshevism, as exemplified by the Russian, so-called government, is characterized as a "ghastly failure" by Col. Edward W. Ryan, Red Cross commissioner for North Russia and the Baltic states. Col. Ryan, after an extended trip through the soviet domain as a private citizen with the Estonian peace delegation, has returned to the United States bringing the first direct information of conditions there given to the American public in more than a year. His account of the situation is in a report forwarded to the state department.

Sees Future Chaos. Without outside aid Russia will be a chaos in six months, Col. Ryan believed. "Raw materials are not to be found in any of the centers, he said, and the people as a whole seem to devote its whole time to the one supreme object of getting sufficient nourishment to ward off actual starvation. Officials of the government, according to Ryan, regarded as the transportation problem alone would result in the overthrow of the present regime.

Moscow Poorly Clad. With no coal and little wood, power and electricity are at a premium and "everybody was cold." In Moscow, the inhabitants were said to be so poorly clad that the visitor "got the impression that it was regarded as a disgrace to be clean or neatly dressed."

Schools are being kept open, he said, and children apparently were considered next in importance to the red army. Hospitals, he added, were practically destitute of the most elementary medicines and equipment.

Indians Give Opera

(By Associated Press.) Dublin, May 14.—The plan of Gen. Sir Nevill MacReady, commander of the government forces in Ireland, looking to closer cooperation between the police and military in an effort to suppress the disorders, involves the establishment of military posts in isolated districts where police barracks had to be abandoned because of attacks upon them. It is stated here on apparently good authority.

ARMY RULE LIKELY IN EFFORT TO QUELL VIOLENT DISORDERS

SOLDIERS TO REPLACE POLICE IN ISOLATED DISTRICTS WHERE BANDS ROOM.

RAIDS CONTINUE Attacks on Government Property Still Occur, But Are Not So Numerous.

(By Associated Press.) Dublin, May 14.—The plan of Gen. Sir Nevill MacReady, commander of the government forces in Ireland, looking to closer cooperation between the police and military in an effort to suppress the disorders, involves the establishment of military posts in isolated districts where police barracks had to be abandoned because of attacks upon them. It is stated here on apparently good authority.

Disorders Work of Rebels. The opinion of the Irish authorities seem to be that the disorders in Ireland which they regard as acts of rebellion, call for the use of soldiers instead of the police.

In line with this view, the military is being sent to the north, which is a dangerous job and hitherto had been left for the most part to the police.

Recent Military. The proposal to establish military posts is resented by many of the Irish people, who regard it as the sending of the British army to Ireland, which was first tried in South Africa in the Boer war.

The rumors of differences of opinion between the Irish and the government of Ireland find no confirmation in official circles.

Attacks Grow Less. Several additional attacks on government property and other incidents occurred in various parts of Ireland last night, but up to noon today the reports indicated that the situation was not as serious as Wednesday night's demonstration. The police barracks, court house, and offices in Kesh, Co. Tyrone, which were burned, while a motor containing provisions for the police was burned near Seville.

Disputed Bands. Destroyed Barracks. Lethbridge, Ireland, May 13.—Police barracks near this city, which had been carried off by the British army, were burned to the ground last night by bands of distinguished men. The barracks were occupied by a sergeant and his wife. The couple were ordered out before the building was destroyed.

The customs offices at Carrick on Shannon was broken into during the night and income tax papers were destroyed.

IRISH NEAR RUMOR OF ELECTION

(By Associated Press.) London, May 14.—Decision by the government to make an early appeal to the country by a general election in an effort to fix a definite Irish policy, has been reached, according to rumors current in London. In well informed circles these rumors are ridiculed as a plan in the country, were occupied by a sergeant and his wife. The couple were ordered out before the building was destroyed.

GEN. WOOD TO HAVE 10 HOOSIER DELEGATES

(By Associated Press.) Indianapolis, Ind., May 14.—Indiana's delegation to the republican national convention in Chicago next month instructed for Maj. General Leonard Wood, four in number, to be sent to the convention. This was the result of the republican state convention that adjourned last night after nominating a state ticket and adopting a platform and electing four delegates at large to the national convention.

GERMANS OBSTINATE ON SPA CONFERENCE

(By Associated Press.) London, May 14.—The German cabinet after a full day's discussion with the ministers of the federal states, decided unanimously that Germany should not send representatives either to the Spa or Brussels conferences unless the French troops are entirely withdrawn from the Moselle district by May 16, according to a Central News dispatch from Berlin today.

Manitowoc Shipbuilding Plant to Be Sold at Auction

(By Associated Press.) Manitowoc, May 14.—The plant of the Manitowoc Shipbuilding company, including the engineering and boiler shops, will be sold at public auction on June 10, it was announced Thursday, after a meeting of the board of directors.

Heavy tax burdens on the company, imposed by federal law on companies manufacturing war material, and the fact that the government in its ship-building program, and the fact that the company is now idle and useless, caused this action of the stockholders, according to L. C. Geer, treasurer.

Socialists Ask Palmer To Pardon Prisoners

(By Associated Press.) Washington, May 14.—Citing amnesty decrees of several European nations, the socialist party, headed by Seymour Stedman, Chicago, socialist candidate for vice-president, appealed to Attorney General Palmer today for immediate amnesty and pardon for all federal prisoners charged with political offenses.

Speeches and writings of labor union activities.

Los Angeles—George Goldbach, said to have been confined in an insane asylum, is reported by the police to have confessed the murder of H. J. Robbins, retired banker of Shelton, Neb., night of May 13.

Two Gazette Ads. Sell 1300 Suppers

The Janesville Daily Gazette, Janesville, Wis.

Gentlemen: By inserting two ads in your paper for the St. Patrick's School supper we served thirteen hundred suppers and had to turn others away.

This proves that advertising pays.

Very truly yours, Mrs. Val J. Weber, May 14. Chairman.

Mr. and Mrs. Edgar Heube and Mr. and Mrs. Henry Heube, both of Beloit, were in North Turtle last week.
C. H. Mendell was on the sick list several days.

Mr. and Mrs. Elmer Burdick and John Krupka, Beloit, were visitors at Louis Baar's Sunday.
Rev. and Mrs. Bennett and family were supper guests Sunday evening at R. K. Overton's.

FARMERS OF THREE TOWNS MAY BUILD GRAIN ELEVATOR

Three meetings of farm bureau members are to be held within the next few days in the vicinity of Beloit to consider the advisability of farmers erecting a grain elevator in that city. The first of the series will be held in the town of Turtle tonight. Early next week others will be held in Newark and Beloit townships.

Initiative in the movement was taken by the Beloit Chamber of Commerce upon the discovery that because of the prices prevailing for grain at Beloit, the farmers have been going to smaller places, Chicago, to market their grain. The chamber is of the opinion that the construction of a grain elevator would give the farmers a better market place.

The agriculturalists, however, are adverse to letting the merchants of Beloit back the project, stating that they feel they can finance it themselves. The Chamber of Commerce, it is said, is willing to withdraw from the matter, but stands ready to give every aid possible.

Already a site has been procured along the right of way of the Chicago and Northwestern railroad and a lease signed.
William Lathers has called the meeting at Turtle, which in addition to the grain elevator question, will elect township officers of the farm bureau.

VERY SPECIAL Extra Quality Hemmed Bed Spreads, beautiful soft finish, scalloped edge with cut corners, size 72x84 inch. Worth \$6.00. Saturday special, \$3.95. Second Floor, J. M. Bostwick & Sons.

SOCIAL DANCE—Will be given by Rock Lodge No. 736 F. A. U., Tuesday Eve in Eagles Hall, Public is invited.

BARBER SHOP LOOTED; PORTER IS SOUGHT

Have you seen "Charlie," the colored porter?
This is the question Chief Morrissey was asking police in other cities today in connection with the looting of the Murray & Rittenhouse barber shop in the basement of the Hayes block Wednesday night. The theft was not reported to the police until today.

Here are a few of the things missing from the shop: 15 razors, pairs of scissors, clippers, massage machine, 2 overcoats, and a pair of trousers. The value placed on all booty is \$150.

A warrant has been sworn out for the arrest of the shop porter who has been missing since yesterday morning. No one seems to know "Charlie's" last name. He is employed by one of the Dan Ackerman family. He has a key to the barber shop.

CHURCH ORDERED TO PAY DEATH BENEFIT

Madison, May 14.—The first award under the workmen's compensation act against a church as an employer was made yesterday by the industrial commission. It was in the case of Mrs. Anton Polshak vs. the church of the Sacred Heart, Chicago, which had employed a widow of \$3,000 was allowed the widow of an employee of the church accidentally killed in the course of his employment.

There have been previous cases in which compensation has been paid by churches. In all previous cases there was no contest, and the churches involved were protected by compensation insurance. This church was not insured. The commission holds that churches are employers subject to the compensation act under the same conditions as other employers.

Waverly Beach, Beloit will open with a band concert and dance, Saturday, May 15.

EDGERTON MILKMEN MAY UNITE TO SELL THEIR OWN PRODUCT

Edgerton milkmen are seriously considering the advisability of forming a cooperative association for the sale of their milk, which averages 40,000 pounds daily. Following a meeting, investigation is being made as to the advisability of connecting with the Chicago Marketing association and asking that organization to branch at Edgerton.

Some opposition to the formation of a cooperative association among the milkmen is advanced because of the difficulty of getting a competent outside manager to come in and handle the proposition with as much interest as a marketing company.

Extra Quality Hemmed Bed Spreads, beautiful soft finish, scalloped edge with cut corners, size 72x84 inch. Worth \$6.00. Saturday special, \$3.95. Second Floor, J. M. Bostwick & Sons.

SOCIAL DANCE—Will be given by Rock Lodge No. 736 F. A. U., Tuesday Eve in Eagles Hall, Public is invited.

BOY IS CAUGHT AFTER LONG CHASE

An exciting chase of a half-mile through the principal part of the downtown district this morning ended with the arrest of the fleeing youth, Thomas Riley, who pulled a gun on the police.
Upon returning to his bunk this morning after a few minutes' sleep, Riley found his bunkmate, Clarence Tate, who had been taken \$9 and a watch from under his pillow on his bed at the Samson barracks. Riley denies the accusation.

He finally took refuge under a porch of a house in back of the Congregational church. He was dragged from his hiding place by police headquarters where he was searched and locked up. A five-dollar bill, which he had bought a couple of days ago. It was dated May 14.

Tate had not preferred charges up to 2:30 this afternoon. At that time he and the boy were being questioned by Judge Maxfield.

Furs Add Smartness to Spring Suits

By ELOISE. Fur coats must be put in storage now and summer furs must be purchased for wear on brisk days with the frost frolic or spring suit. The prettiest little scarfs are being shown of squirrel, fish and fox. At the left is a squirrel scarf which fastens conveniently on one shoulder.

TO FIGHT LANDLORDS WITH THE MOVIES

Chicago.—The movies are to be employed by the organized tenants of Rogers Park, a suburb of Chicago, in their fight against rent profiteering. This step was decided on in their campaign as a means of stimulating morale among renters in the neighborhood. Among paragraphs which the tenants' protective society plans to cast the picture shows in the locality to show are the following:

"They say that prohibition has emptied the jails. Let's fill them with profiteering landlords."

"It is just as important to fight profiteers as it is to defend our country in the war. Don't be a slacker."

"When human rights clash with property rights, human rights should prevail.—Theodore Roosevelt."

"J. E. Patterson, president of the society, reports a membership of a thousand families. He says that 800 residents of Rogers Park have agreed to wear only soft shirts with attached collars, as part of their general move to bring down prices."

"While relying chiefly on publicity and public opinion, the Rogers Park organization is preparing to use the courts, when necessary, against profiteering landlords and ultimately hopes to secure legislation, Mr. Patterson said. His first case is now in the hands of attorneys."

"The leader of the Rogers Park organization argues that in the long run the real estate owner will gain by renting his house to the conservative permanent tenant with a family, who is willing to meet a reasonable advance, but generally cannot stand the extra charge of profiteering."

HOOPER THE SILENT

(Clinton W. Gilbert in Localities.)

He strikes you as shy, simple, frank, very little of an egotist, no self-advertiser, one who makes no thought of his speech and how it should be clothed; a rather silent man, not so silent as Grant was, perhaps, who does not speak except when he has something to say, and when he does speak does not fall into the ruts of speech that most of us fall into, but says what he has to say in the fresh, highly personal way of one who has seen, acted and thought for himself.

For this very reason, perhaps, his newspaper conferences in Washington, during the war, were among the best while those conferences held there at that time. Reporters fed them into his confidence, talks to them frankly, knows instantly what they may say and what he may not say, does not dodge, double and equivocate. Tried by their standard Mr. Hoover is a "big man." He always knew his subject and when he got through talking the reporters always knew a great deal more about it than when he began. He has the silent man's gift of saying the essential thing in the essential way. Small talk not being essential, Mr. Hoover hasn't any small talk through college, and fight his way up to a commanding position in the business world, he probably hasn't had time to acquire any.

The Permanent Committee on Sabbath Observance of the Presbyterian church, with headquarters in New York, has started a determined campaign against Sunday theaters, movies, dances, baseball games and "similar worldly enterprises."

S. AMERICA IS SET RIGHT ON ATTITUDE OF MONROE DOCTRINE

Buenos Aires.—Martin Travieso, member of the Porto Rican senate and who has temporarily served as governor of that island, has been making a tour of South America and endeavoring to allay suspicions of Latin-Americans concerning the Monroe Doctrine.

Senator Travieso appealed to the Americans in South America in an address before the American Club here, to use their best efforts to prove to citizens of South America that the expression of an imperialistic policy on the part of the United States.

Mr. Travieso said that the conduct of the United States toward Cuba and Porto Rico were examples that could be cited to show that the United States had no imperialistic aims.

Speaking as a Latin American, he declared that it was important to lay the uniform suspicion of the motives of the United States in maintaining the Monroe Doctrine were not to protect Latin-American countries from European interference, but rather to obtain political control of them which would be to the benefit of the United States.

He declared that his country was not only far more independent than any of the states of the union but was virtually an independent state as far as the administration of its own affairs were concerned.

"Perhaps in the future," he said, "the United States may constitute us into a sovereign people, but that is a problem which will have to be solved by future generations. We enjoy today all the rights and liberties of the freest people of the world and we have no reason for complaint or protest in our present situation."

Railroad Employees Open General Store

Junction City, Kansas.—A co-operative general store has been opened here by employees of the Union Pacific railway company. The organization is capitalized for \$5,000 two hundred shares at \$25 a share having been sold. Eighty per cent of the stock is owned by railroad employees and the remainder has been sold to workmen in other industries. The railroad company has no interest in the store.

Officers of the new enterprise say they expect to cut the cost of merchandise at least ten per cent by selling their wares at wholesale prices to the stockholders, plus overhead expenses. Any profits accruing are to be divided among the stockholders.

Shop in the Gazette before you also in the store.

ELITE BOSTON HAS ITS RENT PROBLEMS TOO; TENANTS COMBINE

Boston.—Massachusetts has not yet been able to make up for its shortage of homes and keep rents from sky-rocketing. A state commission on the necessities of life is struggling with the problem, but meantime tenants in the city and elsewhere have obtained little relief. Several tenant groups recently refused to pay advances in rent demanded of them and by joint action avoided eviction which would have been legal upon 30 days' notice.

Two hundred tenants at Revere have formed a corporation known as the "Tenants' league to combat rent increases, and have announced that they will tolerate no more advances in rent and requested aid from the city's local department.

An attempt to solve the problem by arbitration has been made in Brookline, a shoe manufacturing center. A board composed of two tenants, two landlords, and a fifth member to be selected by the others, is to decide whether rents have been unduly advanced when disputes arise between landlords and tenants.

At the suggestion of the commission a bill has been introduced in legislature that would limit the return from investments in dwelling houses to 8 percent. The commission found that many builders had stopped construction because of the high cost of labor and materials and had gone to speculating in real estate. The result was that frequent change of property was followed by advances in rent.

Tenants Forced Out

In many cases tenants are forced out of their homes so that landlords might demand higher rates from new occupants. Massachusetts corporations have attempted to relieve the housing shortage by erecting community houses. Whole villages of attractive houses are being erected in New Bedford, Lawrence, Lowell and other mill cities, and will be rented or sold to employees on easy terms.

Yanks Are Greatest Eaters Of Ice Cream In World

Washington.—Americans are the greatest consumers of ice cream in the world, according to a report of the department of agriculture, which shows that 511,860,818 quarts were manufactured commercially in 1919, not to mention enormous quantities made in home freezers. Other phases of the country's vast dairy industry are summarized in the following production figures for 1919: Butter, 889,055,229 pounds; cheese (all kinds), 469,529,240 pounds; milk (evaporated, condensed and powdered), 2,085,144,103 pounds.

Aged Jap Woman Comes To Attend Meeting of Dyes

Tokyo.—Mrs. Kankiko Yajima, 87 years old, has sailed for the United States, where she will represent Japan at the International Conference of Women's Temperance societies. She is the president of the Japanese Christian Women's Temperance society and has been associated with movements for promoting the welfare of women in this country. Mrs. Yajima represented Japan at the same conference in America 34 years ago.

Catholic Mission Work In China Emphasized

Omaha.—The beginning of vigorous Catholic missionary work in China by American Catholics is forecast in the sailing May 26 from Seattle of a party of Catholic priests which according to the Rev. Edward Galvin, includes the first large group of Catholic missionaries to be sent from this country to China. The Chinese Mission Society, which Rev. Mr. Galvin founded in 1916, has recently purchased 250 acres near Omaha with the purpose of establishing a mission of priests for mission work in China.

The delegation going to the Orient this month is sent to an important center embracing the city Han Yang, to which the American society was appointed several months ago by the Holy See. The Rev. Mr. Galvin and have charge of the work there. The delegation consists of 10 priests from St. Columbian College, Ireland, the mother house of the mission, and the remainder from Omaha, where the mother house for this country is situated.

CLUBS ORGANIZED FOR FRENCH WAR BRIDES

French War Brides Clubs, organized under the auspices of the Y. W. C., are springing up in many parts of the country, wherever a large number of French girls have settled with their A. E. husbands. These French wives, bewildered by American social customs, American food and American styles, are glad to talk over their problems and to return for a time, in spirit at least, to sunny France. Reports from several of the clubs show that in the matter of styles, pointed shoes are abhorred pretty generally by these petite maidens, many of whom have sent back to France for the round-toed French shoe. "No nice French woman would wear pointed shoes," says one of the brides. American husbands are not up to their taste either but they like American silk stockings. In most of the clubs the girls, besides indulging in "gummy French reunion" are studying English, practicing the cooking of western dishes and learning some of the occupations and forms of recreation popular with the American girls. The three sisters of Raoul Lufbery, noted French ace, belong to the club in Boston, Mass.

A few copies of the New World Atlas can be obtained at the Gazette office at 25 cents per copy.

Say You Want "Diamond Dyes"

Don't Spoil or Streak your Material in a Poor Dye

Each package of "Diamond Dyes" contains directions so simple that any woman can diamond-dye a new, rich, fadeless color into worn, shabby garments, draperies, coverings, whether wool, silk, linen, cotton or mixed goods.

Buy "Diamond Dyes"—no other kind—then perfect results are guaranteed even if you have never dyed before. Druggist has color card.

An EV-RE-DAY Recipe

- TOMATO CRISP TOAST.
- 1 1/2 cups sliced and strained tomato
- 1/2 cup scalded cream
- 1/2 teaspoon soda
- 3 tablespoons flour
- 1/2 teaspoon salt
- 6 slices toast
- 3 tablespoons Ev-Re-Day

Put Ev-Re-Day in saucepan; when melted, add tomato, and mix in gradually tomato, to which soda has been added, then add cream. Dip slices of toast in sauce.

Made by Wisconsin Butterline Co., Milwaukee. Order From Your Grocer To-day.

212 W. Milwaukee St.

Bake-Rite Bread

is "GOOD" bread

In fact, it is the best bread made in this or any other city and hundreds of people are fast proving it for themselves.

"Bake-Rite" BREAD isn't best simply because we say it is, but because our oven bakes it "DIFFERENTLY", and in that "difference" lies the reason for Bake-Rite's superior quality.

No other oven made "shoots" LIVE STEAM into the baking bread and that accounts for that "all important" moisture which gives Bake-Rite bread its fine quality and delicious flavor (better than the best home-made bread), and hundreds of women tell us so themselves. MOTHERS—

Give your children plenty of Bake-Rite bread; it's the cheapest, most wholesome food you can buy.

—EAT MORE BREAD.

And Then Too There Are Those Delicious

- cookies
- doughnuts
- rolls
- coffee cakes
- and pastries

that are creating a city-wide reputation for us—try them yourself.

AIM TO PUT LEGION ON FIRMER FOOTING

Big Turnout of Ex-Service Men Expected at Meeting Tuesday Night.

Joining hands with state headquarters, the Janesville American Legion Tuesday night will hold a special meeting at the city hall to open up an organized campaign to increase its membership. At that time, Victor E. Hemming in charge of the meeting, will lay before the unit plans to make the week of May 17-22 one in which the number in the local post may be augmented considerably from the ranks of the great many ex-service men residing in the city. The number of the legion is not yet known, but it is expected to be in the neighborhood of 100.

Elect New Officers. An entirely new slate of officers for the post will be nominated and elected at the meeting. This is to be done, it is explained, to give the organization as strong a boost as possible and put it in a firmer place in the life of the community. This step was first considered when it was learned that the post never earlier had several positions which have since been created by the national headquarters.

Selection of appointing two candidates to the state convention of the legion to be held at Grene Bay, June 29-30, will also be taken up. Memorial Day Plans. One of the most important things to come up for attention will be the naming of committees arranging for the plans of the legion to take part in the Memorial day exercises, May 30. Among these lines, the post will join hands with other veteran organizations of the city.

Membership buttons have been received by the post and will be distributed at the meeting to paid-up members. Gov. E. L. Philipp, in a proclamation made public yesterday afternoon by M. C. Glass, grand, 2nd, state adjutant of the legion, has designated the week as American Legion week, and urges every citizen to aid in the service, men in perfecting their organization.

He points out that the present, when economic conditions have furnished a fertile field for mischievous agitators, is the proper time to hoist the standard of Americanism. The governor's proclamation follows: Millions of young men who responded to the government's call to join the colors during the late war have returned to civil life. The fact that they so willingly answered the call is sufficient proof that they are true and loyal friends of the American government and stand ready to defend it against its enemies, both within and without. "It will be a source of great strength to our government if this great force of fighting men will perfect an organization as did their predecessors, the soldiers of the civil war. It should not be a political organization, but one which stands to defend our country and its institutions at all times. It should keep itself free from factionalism and stand for law and order and justice to all men.

Plan Is Indorsed. "I have the assurance that such is the purpose of the American Legion and I heartily indorse its efforts to perfect its organization. Our present economic conditions have produced a fertile field for mischievous agitators who wish to break down our fundamental law, and destroy the magnificent government which our fathers established for us.

"It is a good time to hoist our colors high and promote the true American spirit that will safeguard our republic during these trying times, when the world is threatened by revolution. The American Legion, with the principles and ideals that it stands for, is well equipped to preserve the true American spirit, and I feel confident that its efforts will have the public approval. It is the purpose of the legion to devote a week to the work of increasing its membership.

"I, therefore, declare May 17 to 22, both inclusive, as American Legion week, and I ask the people of the state to give to our returned soldiers and sailors every possible encouragement that their efforts may be crowned with success."

Waverly Beach, Beloit will open with a band concert and dance, Saturday, May 15.

PATIENCE

It is not often that a savage warrior gets his message in the print. In the history of the Indian, the language is not made for written record and few have the patience to translate it so that the beauty of its idioms is not lost. That makes the autobiography of Blackhawk all the more interesting.

It was with great patience therefore that the old guide and trapper, Antoine Le Clair, listened to the tale of Blackhawk's active life and told it to the world. He wrote it down. It was slow and tiresome but into it they put the best they had so that long afterward posterity might know and understand the mind and thought of an Indian.

The autobiography of Blackhawk, being translated each Saturday in the Gazette is the only literary work of its kind in the world. Other Indian stories have been written, but they have been so marked with the thought and language of the translators, they are of little actual value.

Blackhawk's story told with all the Indian love of the dramatic and so colorful, set in a narrative simplicity, was a defense of his life and his attacks on the whites in the last war in which he participated. It is a story which brought him and his warriors into Rock county and all this part of Wisconsin.

Read the story of Blackhawk in the Gazette every Saturday.

Waverly Beach, Beloit will open with a band concert and dance, Saturday, May 15.

SEED ARRIVES FOR COUNTY CORN CLUB

Pedigreed corn for the 17 members of the Rock County Corn Club was ordered by County Agent R. T. Glass yesterday from the University of Wisconsin. Each of the boys and girls will be given 10 pounds of the best seed that can be procured. The corn will be shipped direct from the university to each member.

Prizes for the best results are to be given by the Gazette, the Farm Bureau and other organizations interested in the advancement of agriculture in the county. Purpose of the club, which is being pushed by the M. C. A., is to increase the use of pedigreed seed among farmers of the county.

Members of the club are: Ward Foppanz, R. 3, Brooklyn; Allen Porter, R. 18, Evansville; James Butcher, R. 10, Groedick; Harry Cole, R. D. Milton Junction; Willis Vincent, R. 3, Milton Junction; George Scofield, R. 5, Edgerton; Oliver Marvin, R. 5, Edgerton; John Fossman, R. 5, Edgerton; Edwin Rial, R. 29, Bokila; Charles Huber, R. 19, Beloit; Claude Sprague, R. 29, Beloit; Clayton F. Wood, R. 21, Beloit; Milton A. Langner, R. 11, Full J. Harold Bauer, Milton; Elfred R. Jones, Milton; David Clark, Avonlea; and John McArthur, R. 2, Janesville.

Eau Claire.—With all its debts paid and free of all incumbrances on its handsome church here, Christ Episcopal parish will celebrate its fiftieth anniversary by the consecration of the church edifice.

News Notes From Movieland

BY DAISY DEAN

Have you seen any of the Edgar films? If you haven't, there is a treat in store for you. Marshall Rickson makes his initial appearance in pictures in these productions. In which his sister, Lucille, is playing the leading feminine role. The third episode of the Edgar series, "Booth Tarkington's boy stories," which are being filmed at the Goldwyn studios, is already completed.

Marshall is just past 12 years of age. In this picture he plays the role of a hated rival of Edgar (Johnny Jones), who is desperately in love with Alice (Lucille). Lucille plays the feminine lead in each episode of the series. She is a seasoned little actress in comparison with her brother, for she began her picture career at the age of four in Chicago. Marshall has liked this better than anything in his short screen career.

Twenty-four dozen eggs were exposed to disaster with startling and terrific effect recently in filming a scene in "Edgar Takes the Cake." The eggs were properly cracked and placed in a prominent spot in order to be available for an explosion in a grocery store. When the explosion occurred sooner than expected, the camera men and actors received a generous supply of scrambled eggs.

DID YOU KNOW THAT—

Gaston Glass, who plays a prominent role in "Humoresque," a Cosmopolitan production of Fannie Hurst's story to be released by Paramount-Alcanta, was a pilot in the French air service during the war and first came to this country on a mission for the French government.

Ann Forrest, who plays the part of Betty Morrice in the new picture, "The Great Accident," starring Tom Moore, got her first chance to work in the moving pictures by doing

Lucille and Marshall Rickson.

stunts.

WEN CUBA, OWEN?

Owen Moore is to bid farewell to Los Angeles and make for the east and thence to Cuba, where his next production is to be filmed. The picture was started here and it is believed that the entire cast will be transported across country and Cuba. Nell Craig is playing the lead, while Dagmar Godowsky is vamping opposite Moore.

HOMELESS BOYS MAY BE GIVEN BEDS IN TRANSIENT HOTEL

Chicago—The stray boy who for dinner flattens his nose against the window and who at night sleeps with grown-up tramp in the back alley, will have a place to sleep in the future.

A hotel for boys, to be operated so far as feasible by boys, and fitted up in a way to attract the youngsters who find themselves in the city temporarily or permanently without a home, is the idea of Mr. Brown, who for a decade has given most of his time to volunteer work among homeless boys. His work has brought him in touch with juvenile court officials in many cities and he has enlisted their support in his efforts to obtain a "transient hotel" for boys between the ages of 14 and 17. Joseph Tuntally, the president's secretary, a schoolmate of Mr. Brown, has let his aid to some of Mr. Brown's betterment schemes.

"The Y. M. C. A. conducts a Chicago transient hotel for men, a high skyscraper, calculated to give the homeless clean surroundings, morally and physically, but homeless boys under 17, hundreds of whom drift over Chicago every week, must rely on the dangerous expedient of seeking a rooming house, or, if without funds, may sleep behind a bush. Mr. Brown said: 'I have housed scores of these boys in my own home until jobs and recurrent pay days lifted them off the rocks, and I know what even a few days of decent surroundings can do for them.'"

"The large and properly conducted hotel for which we are working, which will not be a 'boys' home,' will be equipped to do for thousands and thousands of kids what my feeble efforts have accomplished for a few hundred."

Omaha to Be Base of 500 Air Mail Planes in 2 Years

Omaha—Omaha is to become within two years, a base depot for 500 air mail planes, according to Col. J. A. Jordan, chief of construction and extension of the air mail service. "Omaha has been designated for the base because of its topographical conditions and its central location," said Col. Jordan. In case of trouble, a battle plane, converted here, could reach coast or border in from 15 to 20 hours.

Col. Jordan, who is on an inspection tour of landing fields, predicted that with a year mail will be transported from coast to coast in 36 hours. The plans contemplate that, he said.

Laborers Form New Kind Of Summer Vacationists

Chicago—Tourist traffic which will include sea planes on the great lakes this season will exceed all previous

records, according to officials of passenger lines running out of the city. A new class of summer resorters has sprung up in recent years, according to W. W. Thompson and Park Robbins, officials of local steamship lines. Where formerly the "white collar" salaried man took his family on week-end and fortnightly vacations to Michigan and Wisconsin resorts bordering the lake, it is now laboring men who comprise the majority of vacationists. High wages, responsible transportation officials say, for the new class of traveler.

Alpine Farmers Raise One Enough for Home

Vienna—Complaints that farmers refuse to plant crops for sale to Vienna and other cities is frequently heard here. At a meeting of the Vienna Medical association it was charged that the Alpine farmers are confining their planting to just what they will need themselves and thus even less produce than last fall will be available for Vienna at the next harvest. One speaker said that between the Alps and the children were dying there for lack of milk. In the provinces, it was being fed to pigs.

I HAVE PURCHASED

the popular sheet music stock of the Jaeger-McKenzie Music Shop at 112 East Milwaukee St., and will take possession on Saturday, May 15. At this pleasant location I will offer my old friends as well as new the advantages of an enormous, up to date selection of latest song hits.

NEXT OF KIN CAN GET BODIES OF YANK DEAD HOME FROM FRANCE

Paris—Representatives of the American war department here estimated about 15,000 of the American soldiers buried in France will be exhumed and taken back to their native land. A little more than 77,000 American burials have been registered by the Graves Registration service and about 71,000 of these are in France.

Not all of these soldiers will be returned to American soil as the United States war department proposes to carry back to America only those requested by their next of kin. This policy will result in leaving in France those whose next of kin ask that they be left here and those whose removal is not requested. It is understood that the unidentified American dead will be left in France.

Ordered by the Franco-American commission that bodies of American soldiers buried in the zone of military operations may be exhumed any time after Sept. 15 and added to a long period of negotiations between French and American authorities. The French government desired to have the bodies of the American soldiers buried in the zone of operations removed to the rear of the front line, but entertained doubts as to the advisability of removing the American dead from the zone of operations. This was owing to labor and transportation difficulties involving the passing of the bodies over the railways and highways at a time when the French population was in the first stage of its recovery from the economic and sentimental strain of five years of war. The French government feared that the granting of such permission to America would bring on clamorous agitation from other nations for similar permission to remove the bodies of their soldiers from the zone of operations.

American officers have vigorously urged that the number of Americans in the zone of operations be relatively small; that the traditional policy of the United States was to return its dead from foreign soil and that the American government could do no less than heed the pleas of those next of kin who insisted that the bodies of their relatives be returned to their homes.

EVEN FILIPINOS HAVE SHORTAGE OF HOMES

Manila, P. I.—Neither the United States nor Europe has a monopoly of the housing problem for it is acute here as well. So serious has the dispute between landlords and tenants become in the Philippines that the governor-general, Francis Burton Harrison, has called the attention of the legislature to the need of enacting laws to protect the poorer people from excessive charges for rent. Mr. Harrison in a message to the legislature recommended that the lower courts be given the right to say how much rent shall be paid in cases where tenants make complaint.

One method proposed in the legislature to solve the household problem in the city of Manila is to appropriate \$500,000 for the erection of four large apartment houses each to contain 250 rooms. Eighty percent of the rents from these buildings would be deposited with the government and used as it accumulates for the construction of additional buildings.

A daughter of Archduke Frederick, formerly the richest man in Austria-Hungary, has become engaged to a baron employed in a bank at Budapest, at a salary of 5,000 kronen a year, worth at present exchange rate only about \$20.

Redskins Will Pitch Their Wigwags in Palefades' Land

Portland, Me.—Indians living in Maine will make their homes this summer on land which was the abode of their ancestors 220 years ago. As part of the Maine Centennial celebration, three of the Palefades and Pasamunquidys will dwell at Derrig Oaks, which has been conducted by palefades since Sept. 21, 1832. Engaged in a battle of possession then after a conflict with the redskins. The centennial committee will establish villages at Derrig Oaks typical of the original tribal settlements. Wigwags beneath the great oaks will shelter the sole survivors of the powerful tribes that have passed to the realm of the dead. On a nearby stream they will paddle their canoes. Many white visitors are expected to mingle with the braves, squaws and papooses, making a scene not unlike that of two centuries ago, except for the absence of firewater and an occasional clash.

Tribe Men Learn Lesson, Not Digging Up Graves Now

Bombay—Alashids, tribesmen on the Abyssinian border, who during the frontier campaign repeatedly desecrated graves in which British soldiers had been buried, have just been taught a severe lesson that will make them shun of meddling with the dead in future. A trap was set for them. A grave was fixed up which was made to appear that it contained the corpse of a British officer. It contained something more deadly in the shape of gun-cotton and other explosives.

Six Mashuds started to open the supposed grave. Five of them were blown to pieces. The sixth had just enough life left in him when discovered to tell what had happened.

True friends are those we feel like kicking because they point out our faults.

PONTIAC VISIT TO BRING RESULTS

(Continued from Page 1.) necessitated a large amount of ready capital. The company financed the entire deal. There was no turnover of builder's money in mortgages. The Janesville men were shown a block of 50 houses just completed and another unit of 50 in construction. They are of an average of six rooms with water, sewerage, rough grade, sidewalks, and curb, plumbing, electricity and furnace heat. Their cost is approximately \$5,500.

Lansing Had Foresight.

Lansing, as far back as two years ago purchased thousands of dollars worth of lumber. This material is being used now and homes are being built for around \$5,500 which under present market quotation would cost \$6,000 to \$7,500.

At Detroit, the first stop of the party, they saw what the hub of the world's motor industry is accomplishing in building lines. Numerous automobile and other manufacturing

concerns have erected homes for their employees similarly to the Modern Housing corporation plan of General Motors for the Samson Tractor plant. Here, however, there was no concentrated civic feature which found much favor.

Merton R. Fish, president of the Bank of Southern Wisconsin and Frank H. Jackman of the Rock County National Bank went into details with bankers and business men as to the financial end of the various projects. J. E. Auten interviewed the local advancement associations, Chamber of Commerce, etc., as to plans for home building and industrial propositions. Mr. Harmon took up Chamber problems with the secretaries he met.

Report to Be Published

City Attorney Roger G. Cunningham conferred with city officials of the places visited while Sidney C. Eastwick considered Michigan - goods stores and conditions as well as housing. Amos Rehberg and Joseph E. Connors talked business with men's clothing and shoe men.

when the duties of the party turned to other subjects. G. F. Ehringer of the Janesville Sand and Gravel company, was interested in masonry, construction and contractors. "As it was," Mr. Harmon explains, "we had so much to learn, so far to travel and had to crowd everything into so short a period that there was little outside of housing matters that came to attention of any member of the party."

Manager Harmon this morning commenced the compiling of data from the trip. It will be arranged, complete, in the form of a report and will be ready for publication within a few days.

THE DIARY OF AN ENGAGED GIRL

IS CEIL FISHING FOR LINDSEY'S HEART?

After that talk with Ceil I felt awfully close to him and at dinner today I found him looking at me in a way that she has when she is somewhat puzzled at some new outburst of mine or when she is particularly suspicious. I tried to look at her, but she was looking at me and was perfectly natural all throughout the meal. Mother is really such a dear and such a good mother that it hurts me terribly, sometimes, to feel that she does not and will not understand me. I know that she loves me to death, but she will not make allowances for me nor condone with my wanderings, mental or physical. That's all. Ceil has told me to have it out with Jack, just like my aunt Ceil had it out with Jeffery 12 years ago. And I'm going to, some day very soon. Ceil says that the conditions have changed vastly in the last few years, that the war has made both men and women more human. He is pretty sure of it, and couldn't do up to the acid test, and couldn't do otherwise. He says that any man who went through the Argonne fight, as Jack did, isn't going to talk at the girl he loves, that's sure. I admire Ceil for having all that faith after what he has gone through. I hope that if a man can come through, despite all sorts of bitter experiences and disappointments, he is really a man and that he can find his mate, and I just know that he will. We sat and talked happily for some time after dinner, mother filling in and out of the room in a watchful way that made us both smile. Once, when we were alone, Ceil suddenly asked me what sort

of a husband I thought he would be. I answered him quite truthfully and impulsively. "Oh, a very wonderful one." Then I felt my face grow scarlet—and I can't yet explain why. I can't, and yet I can. I just know that his question suddenly made me put myself in the place of being the girl he loved, his wife, and I wondered (subconsciously, of course) how it would feel to be loved by and married to Ceil. It made me feel queer somehow. Ceil never seemed to notice my blush, for which I was more than grateful. I think you would be awfully good to a woman," I explained, "and above all you would be tolerant, and that's what most modern women are seeking in the men they marry to-day—tolerance." "Well, little Lindsey, if you never discover it anywhere else, this tolerance you so crave, always remember that you know of one place to find it!" And then he looked deep into my eyes and I winced back something that I felt welling up in them, for no good reason whatsoever, and said nothing. Just looked at him. But he was very gentle all the rest of the evening. And I felt different and strangely rested, mentally. I have never called upon it to me to go motorizing just as early as I could in the morning, but that he would not be over this evening, it seems, is to be escorted to some dance. I was just beginning to begin "puzzling" again, asked he had "money," when he said, "Remember, sister, 50 years from now nothing will matter." That's a happy thought, isn't it all? (To be continued.)

HEALTH TALKS

By WILLIAM BRADY, M. D.

Dr. Brady will answer all signed letters pertaining to health. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and addressed, self-addressed envelope is enclosed. Address Dr. Wm. Brady, Gazette.

UNROMANTIC HYGIENE—5

The Deep Breathing Palaces

One of the favorite vagaries of the non-medical systems of health is the idea of deep breathing. It sounds plausible, and is therefore "common sense." If you take an animal and insert a tube in the windpipe, connect it with a bellows, and inflate the lungs more deeply than the natural depth of breathing and at the same time a slightly faster rate, for a few minutes, you will find that when the artificial exaggeration of breathing is stopped, the animal does breathe at all for a certain period and when the breathing does begin again it is feeble, shallow in character, only regaining its normal depth and rate after a considerable period.

Now when a human being sets out to improve his health after the rules and regulations laid down by visionary "authorities" whose knowledge of physiology is sketchy, he performs this same experiment on himself with similar results. There is a slight difference in the application of the test. The human being exerts his own muscles in his deep breathing, and the exercise is, in a measure, necessary. The exercise necessarily burns up some fuel, which calls for oxygen. The human being, being experimentally with deep breathing merely breathes in a more shallow manner without a very distinct increase in the rate of breathing effort. The experiment teaches that exercise is the means of increasing the absorption of oxygen in the body, and not deep breathing per se.

It is nonsensical to attempt to increase the oxygenation of the blood and tissues by consciously trying to breathe deeper. It does not produce the desired effect in practice, however attractive the theory may seem in the literature. In the real world without-medical-advice prophets, let the breathing alone. It is a mechanism perfectly equipped to take care of itself. Let general exercise

create the call for deep breathing, the call as nature wills. By taking a dozen rather slow, deep breaths, not minutes, but each minute for ten minutes, you will find that you can easily hold your breath from 30 to 40 or more seconds, which is a very good thing. This proves that the deeper breathing, without excessive effort, does for a brief period supersaturate the blood with oxygen, so much so that you feel quite comfortable without any more oxygen for perhaps as long as two minutes. But this oxygen saturation is in the blood; it does no harm there. In order to get into the tissues of the body, you must do something else, and the surest method of accomplishing the purpose is active general exercise.

Forget all about the breathing—but don't forget to put in your regular dose of exercise. **QUESTIONS AND ANSWERS.** **German Cause Disease.** How can it be demonstrated that German is the cause of disease instead of the effect of disease? (P. E. C.) **ANSWER.**—A culture of the germs (bacteria) is the cause of the disease growing in a suitable medium such as serum or blood. The bacteria are the cause of the disease, and the disease is the effect of the bacteria. If you want to be convinced beyond cavil, the subject of the disease. Only a half-baked, self-sufficient, near-healer of some freak so-called "school" of medicine can do this. German cause disease, and he does his doubting where it will bring him the most business.

Correction of Tapeworm Item. Communication from a U. S. government official, the Bureau of Animal Industry, Chicago: Are you sure tapeworms are caused by eating raw pork or pork not well done? Why charge tapeworm up to the poor hog when Cysticercus bovis is the guilty host? (J. H.) **ANSWER.**—They are—thank you for the correction.

Heart and Home Problems

Letters May be Addressed to Mrs. Thompson, in Care of the Gazette

Dear Mrs. Thompson: I am a girl 19 years of age and am corresponding with a fellow I have never seen. It happened in a sad way, but it may change to happiness. He has sent me a few photos of himself and asked for mine in return, which I did not refuse to send. Do you think I did the proper thing? I have corresponded with him for over a year and he has always sent me nice interesting letters. He is living a rather lonely life, as his mother died when he was a little boy. He lives about 600 miles from here and has asked for me. Do you think it is proper, or do you think I ought to make an excuse? My folks are thinking it may spoil my chances after he has come. I let him come, for fear people will think we are engaged. What is your advice? He is three years older than I am. Do you think it would be all right for me to accept a box of candy from a fellow I have never met? My brother was well acquainted with him for a few months during army life. Then my brother died after what he has written letters that prove to be respectful. He has asked how I would like to live in the south with him, but I have not answered his question. Since the young man was a friend of your brother's, it was all right to correspond with him and under the circumstances, I think for him to send you his picture. If he wants to visit you, let him come. I have a good idea of how he is and you can assure them that you are not engaged. It would be all right to accept candy from the young man.

Dear Mrs. Thompson: I am a girl 18 years old and I am in love with a man of 35. My mother and father are very much against him, although

TAFFETA FROCK HAS PETAL-LIKE SKIRT TO HONOR SPRING

By ELOISE.

The taffeta frock which will continue popular until the very warm weather arrives is appearing in many new modes. It will always find favor at the between-seasons time, and especially in the early spring and fall. In fact, it is getting to be the accepted thing that no well-dressed woman considers her wardrobe complete unless she has at least one simple little taffeta frock for her informal affairs and general wear.

This charming model made of navy blue taffeta must have been inspired by the early blossoms of spring, for the skirt is very like flower petals, each tier shaped and edged with narrow piping.

The blouse is a quaint little short-sleeved affair with a net and lace gilet. A band of Roman striped ribbon with a row of the fluting on both edges forms the girdle.

The smart little hat worn with the frock is navy blue straw trimmed with a cluster of pink roses. A coquettish touch is added by the little eye veil of black Chantilly lace.

I do not see anything the matter with the frock. It is very lovely and I am all the world to him. He has also said he could not get along without me. I do not "please" do not say that I do not love him, for I do. I don't believe I could live without him. My mother and father heard some very bad things about him, although he claims they are false. I do not believe they are true. I am treated very well at home and much better since the trouble. I have a few friends who are younger than myself and they believe as I do. Please give me your honest opinion about the matter and I will try to follow it.

AN ADVISEE. Seventeen years is too great a difference in your ages. There is little chance that you will like the same things for many years. He will be old when you are in the prime of life.

When you think that marriage should tie you for life, it is a pretty important step to take. If I were you I would wait five years at least before making any decision. Your father and mother should be better judges of character than you are, because they have lived longer and experienced more. If they feel that he is not good enough for you to get their point of view. They want you to be happy more than any one else in the world.

German chemists have discovered that fertilization of the air increases crops. The use in greenhouses of carbonic acid gas purified of sulphur caused amazing results in yield and quality of tomatoes and potatoes.

Household Hints

MENU HINT
Breakfast—Stewed Rhubarb, Fried Tomato, Cream Gravy, Toast.
Luncheon—Tuna Fish Salad, Whole Wheat Bread and Butter.
Dinner—Noodle Soup, Radishes, Braised Roll of Beef, Brown Gravy, Boiled Hominy, String Beans, Coleslaw, Stewed Fruit, Cornstarch Pudding, Coffee.

GOOD MEAT DISHES

Braised Roll of Beef—Select a three and one-half to four pound cut of fancy brisket of Boston roll and wipe with damp cloth. Now pat one-half cup of flour into the meat and place on half cup of shortening and fry in hot oil. When smoking hot, add the meat. Brown meat well, turning frequently until a good, rich brown. Now remove and place into a saucepan. Add six tablespoons of flour to the fat left in the frying pan and brown flour until a rich mahogany brown. Then add two cups of cold water and stir thoroughly blend and bring to a boil. Cook three minutes and pour over meat in the saucepan. Then add one cup of cold water, cut into large dice, one fagot of soup herbs, one cup of boiling water.

Cover closely and bring quickly to a boil. Then set over the simmering burner where the meat will cook slowly until tender. This usually takes about two hours. **Boiled Chicken**—Soak a slice of ham to a cup of milk overnight. Lift ham. Now put on ham three tablespoons flour and add one-half cup fresh milk to the milk in which ham was soaked. Bake 35 minutes in a moderate oven.

Boiled Chicken, Cream Gravy—Select a small stewing chicken and singe and cut as far as possible. Place in a saucepan and add two cups of boiling water. Add one small carrot cut into dice, one fagot of soup herbs. Cover closely and cook slowly until tender. New remove soup herbs and season. Lift chicken to a hot platter, while preparing cream gravy. Three-quarters cup of chicken stock, two cups of cold milk and one-half cup of flour.

Stir to dissolve the flour and bring to a boil. Cook slowly for five minutes. Season and pour over the chicken, sprinkling with finely minced parsley.

Biscuits—Three cups flour, four teaspoons baking powder, one-half teaspoon salt, two tablespoons cup shortening and three-quarters cup milk or half milk and half water.

Sift together flour, baking powder and salt, adding shortening, and rub in very lightly. Add liquid slowly; roll or pat on flour and hard to about one inch in thickness (handle as little as possible); cut with biscuit cutter. Bake in hot oven 15 to 20 minutes.

TRY THESE. To Keep Moths Out of the Carpets—Before the carpet is laid down again scrub the floor with strong hot salt and water. Sprinkle the carpet with salt once a week before sweeping.

Try this and it will prove good. The housewife will find by pouring a little kerosene into the water when washing windows, mirrors, lamp chimneys, etc., they polish quickly and look so much better. Sift together flour, baking powder and salt, adding shortening, and rub in very lightly. Add liquid slowly; roll or pat on flour and hard to about one inch in thickness (handle as little as possible); cut with biscuit cutter. Bake in hot oven 15 to 20 minutes.

Attorney-General Palmer promises that the government will not desert from its efforts to rid the country of red radicals, and predicts that a second, third and fourth Soviet ark will sail from New York across the sea in the near future.

WITH THE WOMEN OF TODAY

Rev. Emma J. C. Park, M. D.

The shortage of man power during the war helped to open the door of many professions and industries to women. We have heard a great deal about women holding men's jobs and about the ministry. The door of the ministry was opened to women by the shortage of men during the war just as other doors were opened to them. Another thing which helped women turn toward the ministry was the prevailing low salaries which were inadequate for men, especially with families.

The first and only clergy woman in Massachusetts is the Rev. Emma J. C. Park, M. D. Dr. Park has been in the ministry for some years and at present she is very active with the rest of the clergywomen of the Baptist church taking part in the New World Movement. The Northern Baptists seek to raise \$100,000,000 for this cause. The clergywomen of the Baptist church all have their own pastorates and are really doing a big work.

FAMOUS FOLIC NOMINATED Names of 87 men and four women have been proposed for election to the Hall of Fame of New York University.

Three of the women were home and social workers and the fourth was Fanny Davenport, widely known actress of two decades ago.

CHATTER TOO NOISY The New York Sun and Herald

Georgette Waists, Soiled, Half Price

Just nineteen of these in White, Flesh, Tan and Peach, no two alike, all sizes in the lot. One laundering will make them good as new. Formerly priced \$8.95 to \$16.50, Saturday 1/2 THE ORIGINAL PRICE

To Lower the Cost of Living.

We're enlisted in that fight, heart and soul. The day when the people of the United States will carelessly watch the mounting prices is past.

At first everybody was so delighted with having more money to spend that few stopped to realize that with all their money they were not getting any more of the necessities, comforts and joys of life than they got out of less money a year or so ago—so that prices must go down.

We are in the Nation Wide Movement to lower prices and our entire stock, including everything in the store has been reduced

You haven't seen such pretty waists in years at this price.

Dainty colors, Peach, Flesh, White, Corn and Navy; hand embroidered and beaded, very special at \$5.35

to this port. The bird was almost exhausted when it made the steamer and flew aimlessly about the broad expanse of deck before fluttering down to safety.

Farmer Almost Buys Skyscraper at Bargain
(By Associated Press.)
Omaha's tall buildings, with willingness to sell at reasonable prices and inclinations to buy, is reported. Three strangers in a hotel lobby "sold" the 18-story Woodmen of the World building for \$3,000, but a detective walked up just as the deal was being closed.

Two days later a farmer "bought" the Keeline building for \$5,000, and was just about to pay freight when police again happened along.

LAD TRIES TO STEAL CIRCUS ELEPHANT
(By Associated Press.)
Cincinnati—The attempt of a 15-year-old boy to steal an elephant from a circus performing here and riding the rails, it will appear in the annual report of the local juvenile court. The youngster was caught as he was trying to climb on the ele-

phant's back. What to do with his prize after he had it on his hands, he said had not occurred to him.

Tales of India, the lad admitted, had fired his imagination.

He was placed in custody of the juvenile court and sent back to his parents, who live in Michigan.

Sea Bird, Weary of Wind, Seeks Refuge on Ship
Victoria, B. C.—Nine hundred miles out at sea, a bird of the plover species recently picked out the liner Tajima as a haven of refuge among the vast waters of the Pacific while the big steamship was plowing along

This stylish coat can be made from 2 1/2 yards of 27-inch material in 1/2 hour. There is 1 seam only.

Visit the dress goods section for a selection of charming material. A few moments of your time and you can make a coat for less than you ever dreamed possible.

Samsons Take On McCoy-Nolans in Week-End Battles

BIG TIME STARS TO FACE TRACTOR CLUB

Milwaukee Team Made Up of Four Major Leaguers, Three Western Leaguers and Two American Association Men.

Last Sunday we said bring on the McCoy-Nolans. They're on, their way they will arrive in town tomorrow morning.

In their lineup they have an aggregation of former big time stars that will set the fans on edge for a little while. But that's what the enthusiast wants. He'll get lots of it tomorrow afternoon and again on Sunday in the week-end games that Manager Perring of the Samson Tractors has arranged with this Milwaukee outfit.

Some Material:
Heading the list for experience comes Jap Barbout at second base. Formerly a Pittsburgh Pirate in the major league, he has had the most experience of going the complete circuit of national league clubs, having played with all of them. In addition, he has hung around the camp of the Cleveland Americans for some time learning how to scalp them all there.

Butcher, who will take the mound tomorrow, was once with the Boston Braves. Dick was rather still in last Sunday with his big hit, but he faced the Chicago Union Giants at Milwaukee.

Cole, who covers center field, was a White Sox until last year when he quit to take up semi-pro ball. Range, first sacker, is the other major league man in the array. He was a Cleveland player. Nicholson, left field, played with the Western league, as did Greening, shortstop, and Custer, catcher. Last year Custer managed one of the western teams.

Bues, third base, was with Kansas City of the American Association, and O'Day, right field, was with St. Paul of the same circuit.

Through an error of Manager Perring, the window cards announcing the big games of tomorrow and Saturday mention the McCoy-Nolan ball club. They should read the McCoy-Nolan Supply Co. engineers' products, Milwaukee. Just a slight difference, but a big one just the same.

The McCos have been given the nickname of All-Stars for several years. But never before have they had such an all-star bunch as this season.

Milwaukee and Chicago and other towns of the Central Industrial league are just as interested in the outcome of this week's games as Janesville.

And there is a little interest in Beloit, also, by the way.

Every ball player is doing it. Joe Cronin is another big leaguer who has tired of everyday baseball. Yesterday he jumped the Reading team of the International league to play with the Magenta of Chicago, the lake city that played here last week. He will start with the Magenta on the mound Sunday.

It is expected that "Left" Sullivan, who jumped from the White Sox to the Fairies yesterday, will appear in a Beloit uniform starting on Monday. His acquisition by the Gateway city will strengthen the pitching staff down there.

IOWA CONFERENCE MEET READY TO OPEN

Cedar Rapids, Ia., May 14.—More than 150 athletes from the eight colleges of the Iowa conference met here today to take part in the eleventh conference meet.

Cow college and Cornell of Mount Vernon have the largest entry and the meet promises to develop into a fight between these two schools for top honors with Des Moines Union expected to have an easy third. Dubuque and Iowa Wesleyan are seen as even contenders for fourth honors while Parsons, Penn and Simpson appeared to have but little show.

As You Were

By BUCK.
Of the Stars and Stripes A. E. F.

DOMESTIC ECONOMY
The time:—On Tuesday last. The place:—Right here, in Iowa. The Most Distigulished Cast

My wife
And I
A gown.

(The setting makes it very plain, it's getting late and going to rain.)
I. (Pondly, as her arm I grab). Come, dear, I'll have to call a cab.

My Wife. Oh, no. (Then very jolly) I think we'd better take a trolley.

I. (Speaking with a bit of stress) Walk to the car? You'll spoil your dress.

My wife. Now don't be stubborn, it's almost stopped. (Holds out her glove.) You see it's getting clear above.

I. Now—(Start being firm, then fizzle.) We both rush out into the drizzle.)

My Wife. A moment and we're there!

I. Moment h—

My Wife. Don't swear!

I. H—

My wife. Shh!

I. Won't hush—rats!

We'll soon be wet as two drowned mush-rats!

My Wife. Not mush-rats, muskrats, dear.

Now come along, the trolley's here.

(Scene II, our flat, morose, we trip in. Our tempers flared, our clothing dripping.)

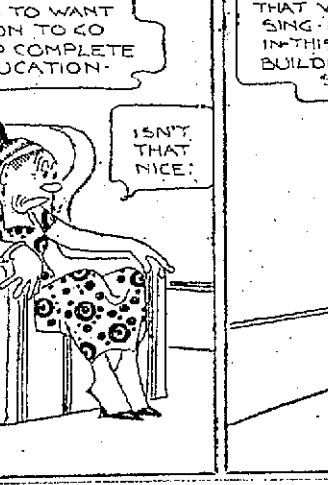

My wife. (Regarding me hard-boiled) I hope you note my gown is spoiled.

I. (Wadding up a wilted dollar) Car-fare out here is just a dollar.

BRINGING UP FATHER

HE MUST BE CRAZY

CERTAINLY I WANT HER TO GO TO EUROPE

YOU KNOW VERY WELL HER HOWLING KEEPS US AWAKE

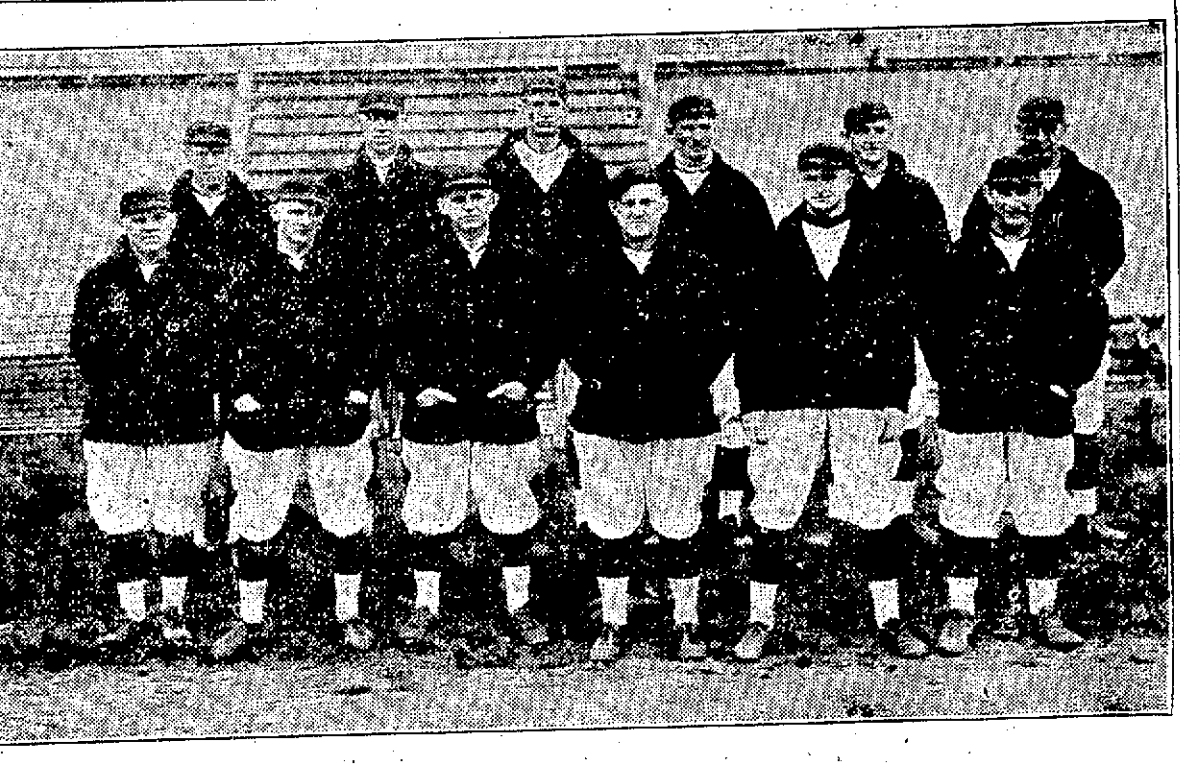

I KNOW IT-THAT'S WHY I WANT HER TO GO TO EUROPE

BY GEORGE McMANUS.

Samson Tractor "Sammies" Ready for Opening Game at Home, May 7

Top Row (left to right)—Beale, 1b; Lathrop, rf and p; Walsh, p; Perring, manager and 3b; Wooten, cf; Bigelow, lf.
Bottom Row (left to right)—Andrews, lf; Schwind, ss; Shook, c; Holland, 2b; Breckenridge, cf; Maybee, utility.

FAIRIES CROSS WITH GUNTHER ROAD TEAM

Fairbanks-Morse baseball club takes on Billy Niesen's Chicago Gunthers at Morse field this week end. While the Gateway city fans are hot up about the games, and there is no doubt that they will be good ones, Janesville fans should not go to figuring on the chances of the Fairies against the Samsons from the results. This is the reason.

The Chicago Gunthers, that will play at Beloit are Niesen's travelling team and not the bunch that the Samsons played at the Windy city two weeks ago. The Pyotts are the old travelling team that went under the name of Gunthers, but they never wander from Cicero park.

ST. MARY'S DEFEAT BLACK HAWKS, 23-25

In a six inning game yesterday the first Black Hawk game was given to the St. Mary's nine, 23-25. Loerke was pitcher for the Hawks and Lathrop for the winners. Ashcraft was the star player on the Hawks.

The St. Mary's will cross bats next Tuesday with the Cubs the new name for the Hawks.

Owing to scarcity of help, due to lack of farm interest in jobs in cities, there will be reduction of more than 200,000 acres in cultivated lands in New York state this year.

BATTLE FORMATION TOMORROW

McCoy All-Stars—Nicholson, lf; Barbout, 2b; Cole, cf; Bues, 3b; Greening, ss; Runge, 1b; O'Day, rf; Custer, c; Crutcher, p.

GOING AHEAD WITH FIELD DAY PLANS

Arrangements for the first annual field day of the Rock County Game Protective association to be held at Stanley Pierce's lodge on Lake Koshkonong June 5, are going forward with precision. While the committee in charge is not ready to make definite announcement as to events and prizes, it was stated today that 5,000 white flies have been purchased as a starter.

J. C. Rood, Beloit, chairman for the event, has written to all sporting goods houses for prizes. As soon as he receives replies, the committee will be ready to give out a statement of interest in the shooting, casting, fishing and other sports to be held in running high.

Thinelander.—Dr. P. R. Kirsch has been appointed dental officer for the United States public health service for Rhineland and surrounding territory.

RED SOX TO PLAY AT RACINE, SUNDAY

With new faces in the lineup, the Janesville Red Sox will journey to Racine Sunday to tackle the Racine Specials. The locals will make the trip by motorcar, leaving the city at 7:30 in the morning. Harry Ross, printer formerly editor of the Gazette, will accompany the boys.

While they last two weeks ago to the Gardner Grinders, the Sox have hopes of bringing home the bacon Sunday. They will have Berger and Fleming to choose from on the mound, though there is talk that Berger will not go along. Jackson will catch, Howell or Felley will cover second; McManley third; Britt short. Roberts will be found in the left garden and Gordon or Rasmarak right.

Eau Claire.—Plans are being perfected for a \$100,000 automobile passenger bus line to reach cities in the Chippewa Falls valley, with headquarters in Eau Claire.

EARLY STAKES FOR LOCAL TRACK \$4500

Amounts Named Today—Six More Horses Arrive—Spencer Has Great Stable.

Early closing purses for the events of the Janesville Park association to be held at the fair grounds track here August 10-13 were announced today by Charles S. Purnam, secretary. They amount to \$4,500.

The stakes, named after officials of the General Motors Corporation and the Samson Tractor company, follow:

W. C. Durant 2:12 pace, \$1,000
F. W. Hobson 2:18 pace 1,000
Samson Tractor 2:15 trot 1,000
C. C. Clay 2:20 trot, 1,000
J. A. Craig 3 year old colt, 500

Late closing \$500 purses will be announced later.

The Janesville events will be part of the Wisconsin Grand Circuit, recently formed, including Beloit and Flatville, for which the total stakes will be about \$30,000.

With the arrival here of six new horses, the stables have been increased to 35. E. Klinkert, Racine, has just sent two head down. The Hildebrand stables of Racine sent four.

Horses in Great Shape.
At a recent visit to the grounds, the horses were found in the very best of condition and further advanced, owing to the condition of the track, than at any other plant in this part of the state.

George Spencer is training the largest and best stable of horses ever trained by one man in the state of Wisconsin. His horses look fit to go to the races today.

Frank Pearce, Dixon, Ill., uncovered a green trotter last Sunday for his owner, William Hayman of De Kalb, by showing him a quarter of 31 seconds.

Charles E. Elvers of Madison is down visiting the grounds today to watch his horse, Expression. He is very much pleased with his horse and looks for him to be a good stake horse this season.

Clintonville.—Ernest Koske, a farmer living near Clinton, was buried Sunday. His death having been caused by the accidental discharge of dynamite with which he was blasting stumps.

FOUR ALL-STARS ON INJURED LIST FOR GAME WITH MILTON

Badly crippled by the loss of "Poke" Graesslin, who will be out of the game for at least three weeks because of a smashed finger sustained in an accident yesterday, the All-Star baseball team will nevertheless hold to their engagement with the Milton Crescents at Charley's Bluff, Lake Koshkonong, Sunday. In addition, "Charlie" Bick, southpaw, will be on the bench because of an injured leg from which he has been suffering for a week. "Plug" Zahn, nursing a torn muscle, in his right arm, will be out of the game, for a couple of weeks.

Who Will Pitch?
The rest of the lineup will be as follows. "Josie" Prox, with an injured hand, in the infield. Dimp Crowley at catch. The others will be the usual bunch.

The Stars question is who will pitch. Captain Babcock hopes to have a first rater in time for the game. Against the Stars, the Miltonians will put "Shirley" Astin. Last year he beat the Janesville boys 6-5. To take them to the lake Sunday, the Stars will have a large truck. Those desiring to go along should get in touch with members of the nine.

JUNIORS PLANNING BASEBALL LEAGUE

Formation of The Junior Ball league is being planned and would be open to a number of boys of the city 15 years of age and under. Already three teams have lined up, those being the Cubs, formerly the Black Hawks, St. Mary's and St. Paul's school. Lincoln and Adams boys are expected to fall in line to make the number of teams at least five. The initiative is being taken by the Cubs under the direction of Manager Edwin Loerke, who wishes players and sums desiring to join to get in touch with him.

Tonight the Cubs will play a seven inning game with the St. Paul school. Loerke and Ashcraft will be on the mound for the Cubs.

BELOIT TRACK MEN MEET WHITEWATER

Beloit, May 14.—Beloit college track men will meet their first real tryout of the season here tomorrow when they meet representatives of the Whitewater Normal school in the opening dual meet of the Gold spring schedule. The meet will be held on Hancock field, and the 1st event will start promptly at 2 o'clock. Efforts to complete negotiations for a session with Carroll college of Waukesha fell thru Thursday, and the Whitewater crew was signed up instead.

Palermo, Western League, Pitches No Hit Game

Omaha, Neb.—Palermo, local Western league pitcher, hurled no hit game against Joplin. He struck out 12 batters, and gave up only one run and gave one base on balls.

WILDE PUTS MURRAY TO SLEEP IN SECOND

Philadelphia, May 14.—Jimmy Wilde, British lightweight champion, knocked out Battling Murray of Philadelphia in the second round of a scheduled eight-round bout here last night.

Fight Decisions

FIGHT DECISIONS.
SPORTS.
Rock Island, Ill.—Tommy Comiskey defeated "Goats" Doig, in 8 of 10 rounds.

By Rex Photo Service.
PRESIDENT J. A. CRAIG of Samson Tractor Co. ready to receive the first ball of the opening game of season, May 7, with Chicago Magenta here.

Adopt Special Rules For Grade School Ball

To put the grammar schools baseball league on a firmer basis, C. W. Rood, in charge of the organization, announces the adoption of three rules, which will be firmly followed out for the good of the sport. The rules are:

1. Any player or umpire who disputes a decision of the umpire will be removed from the game immediately by the umpire.

2. If a man at bat disputes the umpire's decision, the umpire may call him out.

3. The umpire may remove a player or players from the game for unnecessarily delaying the game.

4. If all players or majority of players of a team start an argument and refuse to play after a reasonable length of time, they will forfeit the game.

All regulation rules for playing baseball will otherwise be strictly adhered to.

CICOTTE TAKEN ILL; CUBS BEAT DODGERS

AMERICAN LEAGUE.
All games postponed, wet grounds. Cicotte of the White Sox came down with tonsillitis yesterday and Manager Gleason is all up in the air with him.

NATIONAL LEAGUE.
Outitting, and doing everything better than the Cubs, everything but winning, the Brooklyn Dodgers yesterday dropped to Chicago 2-1. In a cold, raw day. The Cubs worked hard to get their fans and it was steady clubbing that they took the long end. Five times they had men within sight of home, but they died before they crossed the other side.

The New York Giants shut out the Champion Reds at Cincinnati yesterday, 6-0. Fisher was wild in the first inning but steadied for the balance of the battle.

Boston's winning streak was broken yesterday by the St. Louis Cardinals 3-2. Smith started downslide of the Beantown men in the fifth with a hot-drive to the right field bleachers scoring Haines.

AMERICAN ASSOCIATION.
When Deebie Gearin made a safe hit yesterday afternoon in the eighth inning, a pitcher's duel between Lou North and Clint Rogers was broken and Milwaukee defeated Kansas City 5-0.

It's better to work a combination than it is to blow up a safe.

You can buy here with the definite assurance that the quality and price are both right. Satisfaction or money refunded.

Noteworthy Values In Stratford Clothes

Several Good Houses in All Parts of City.

ACCIDENT VICTIMS IMPROVE; HOSPITAL FILLED TO CAPACITY

Frank Kelly, electrician who suffered bad burns and a fractured arm when he came in contact with a high voltage wire and was hurled to the ground from the top of the electrical sub-station at the Samson plant, Wednesday, is reported by Mercy hospital authorities today to be resting easily.

The condition of Nick Sarria, the Greek sectionman who received a bad fracture of the skull when clubbed with a pickaxe in a fight a week ago, is a marvel to surgeons and hospital attendants. Sarria's injury is still serious but today, as has been the case since he entered, he showed steady gain.

Clifford Campbell, farmer, who suffered the fracture of his right hip when he fell through a hole while pitching feed to sheep from a hay-rack, is resting comfortably as is Antonio Arthur, who was crushed by a drilling machine a week ago tomorrow at Darlington.

With a long list of conditions preventing full space is at a premium at the sisters' institution. It is almost impossible to secure a room unless arrangements have been made days before hand.

While contract for the addition called for completion by December 1919, this section, equal in size to the part now in use, is still unfinished. The building material condition of last fall, together with the fuel situation caused the original delay. Following that the original delay a series of strikes throughout the country which further complicated conditions. Of latest importance is the controversy between Janesville labor and Janesville contractors. Ford, Boos & Sons have the contract. Mr. Ford has been compelled to do

actual carpentry work, the first time in years, he reports. Victims of emergency cases in most every instance lately have had to be temporarily content with cots in the hall. There was no available room Wednesday for Frank Kelly, when he was rushed in without notice to the hospital after receiving almost fatal electrical shock at the Samson plant.

Such conditions will be eliminated just as soon as the new parts are ready for occupancy, the sisters declare, but when this will actually be is only speculation. Some time ago it was believed that portions of the addition would be ready by June but the local labor situation has made this doubtful, it is said.

DRIVERLESS CAR PERFORMS TRICKS ON MAIN STREET

A motor car driven by Miss Harriett Connors and parked on North Main street yesterday afternoon, started out on its own hook to tour Janesville yesterday afternoon. Going north on Main street, it decided to enter the Grube & Newman cigar store. Dr. M. A. Cunningham's machine standing in front of this store was shoved onto the sidewalk, almost into the front glass, putting a dent in the back left side and fender. The machine which decided to take a run around the block without an occupant blew out the left front tire and smashed the left fender. Neither car was damaged to any great extent.

BRODHEAD KNIGHTS WIN DRILL CONTEST; JANESVILLE FIFTH

Brodhead Knights of Pythias carried off third rank drill team honors at the annual competition held Tuesday at Clinton, according to announcement of the judges made today. Evansville was given second place; Clinton, third; Edgerton, fourth; Janesville, fifth; Whitewater, sixth; and Beloit, last place.

GENERAL MOTORS PLANS STOCK ISSUE

Local men who own stock in the General Motors corporation are interested in the announcement that the corporation contemplates issuing \$35,000,000 additional common stock, this to be sold to British and Canadian interests. The present common capitalization is approximately \$145,000,000. The block of stock, it is asserted by V. C. Durant, president, will be held as a permanent investment.

NEW MAPS OF STATE ROADS AVAILABLE

What is said to be the most complete highway map for tourists ever published has just been issued by the state highway commission. Local motorcar owners may secure them by writing to the superintendent of public property, Mudgett. A charge of 25 cents is made.

The map shows the complete trunk highway system including 1919 additions. A new feature is the showing of distances between 50 principal cities.

LUTHERAN QUOTA IN COUNTY, \$6,185

Rock county's quota in the Lutheran world service campaign in Wisconsin for \$150,000 has been fixed at \$6,185, with Rev. T. C. Thorson, Janesville, appointed county chairman. John C. Kuck, Madison, state chairman, feels confident Wisconsin will reach its allotment.

Nine Lutheran churches in Rock county are enlisted in the drive.

PHYSICAL DIRECTOR HEADS BELOIT "Y"

Beloit, May 14.—W. J. Waterman, general secretary of the local Y. M. C. A., has resigned and Charles A. Daly, physical director, has been appointed to succeed him according to announcement made yesterday afternoon. Mr. Waterman will enter business in Chicago.
